

# ***SYNC 2 NAVIGATION PRE-INSTALLATION – WHAT YOU NEED TO KNOW***

This product allows Sync 2 owners the ability to program their vehicle for the GPS navigation feature. The programmer will program your vehicle's computer to enable the GPS navigation feature on your 8" radio display.

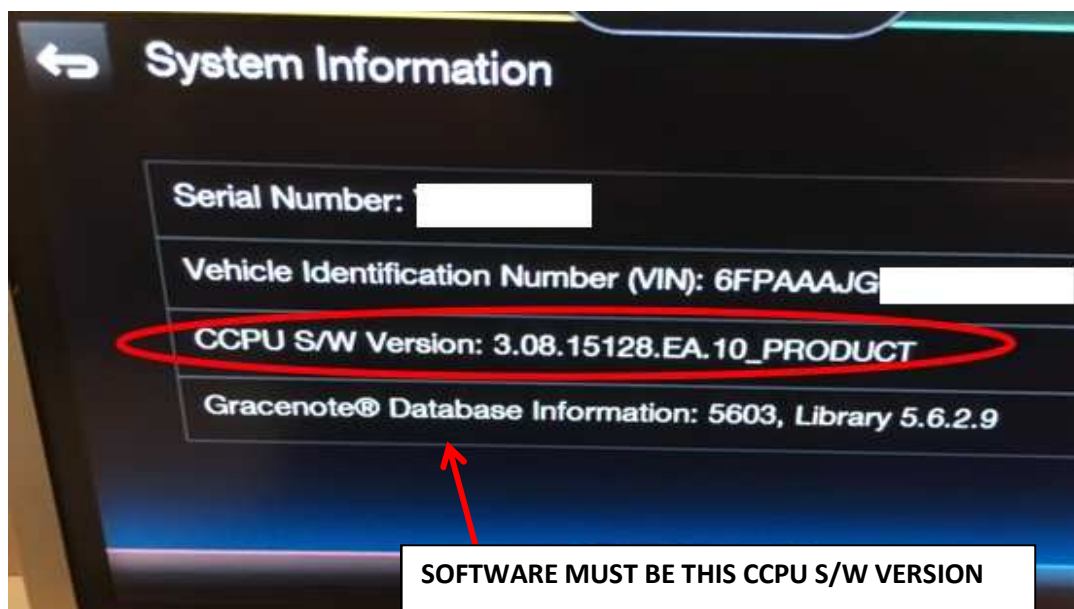

## ***VEHICLE COMPATIBILITY***

This programmer is designed for the following vehicles:

Ford Falcon FGX  
Ranger PX MKII  
Everest UA  
Kuga MKII  
Mondeo MD  
Focus LZ

## ***NEED TO KNOW***

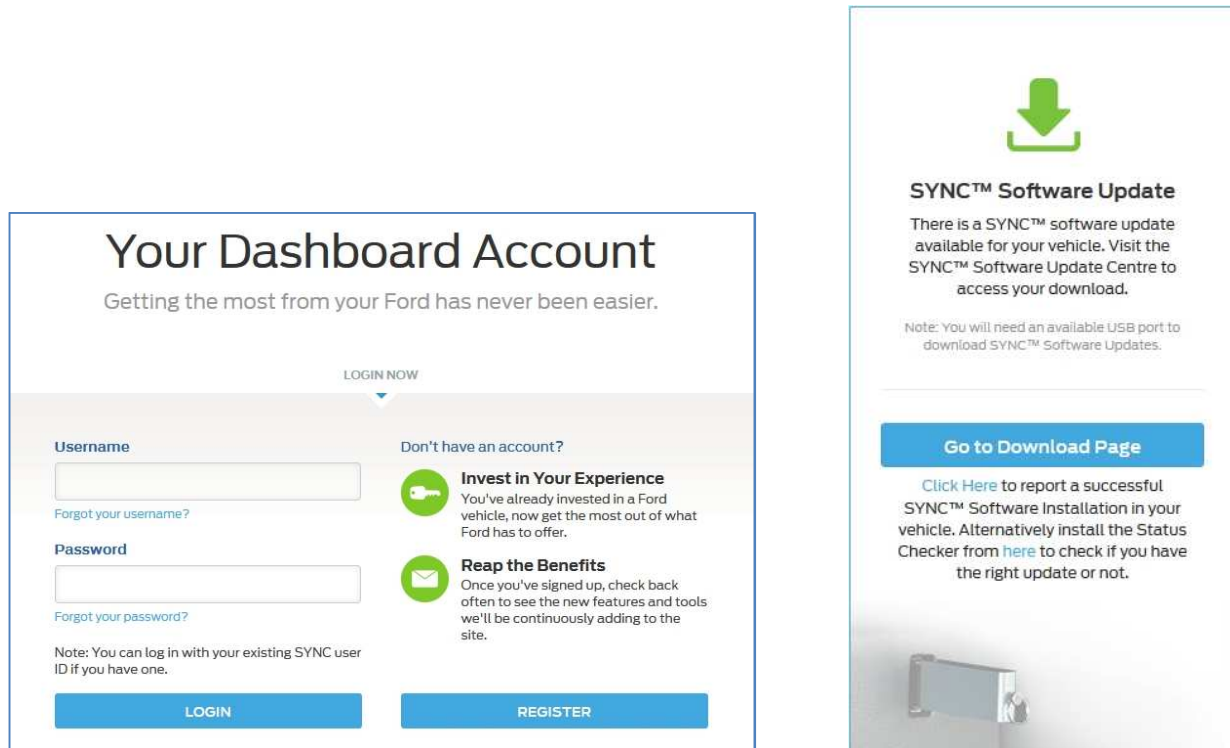

- Vehicle must have a factory 8" radio display screen with the "information" tab in the upper right hand quadrant.
- The radio **MUST** have latest **CCPU S/W version: 3.08.15128**. If your S/W version is a 4.32 your SYNC2 **WILL** require an upgrade as it is **NOT** the latest update. **(The higher the version number does not correspond with the latest update.)** To find this information please select the settings tab, select HELP tab and select 'System Information' Please see below example.

If your software is not the latest version this can be obtained at a Ford Dealership upon request or you can register at the Ford Owner Dashboard.

Please go to Ford Dash Board account and Register your vehicle:

<https://www.ford.com.au/owner/login?sitetype=web&site=FOA>

The image shows two side-by-side screenshots from the Ford website. The left screenshot is the 'Your Dashboard Account' login page. It features a header with the title 'Your Dashboard Account' and the tagline 'Getting the most from your Ford has never been easier.' Below this is a 'LOGIN NOW' button. The main section contains a login form with fields for 'Username' and 'Password', each with a 'Forgot your username?' and 'Forgot your password?' link. There are also links for 'Don't have an account?' and 'Invest in Your Experience'. A 'Note' at the bottom states: 'Note: You can log in with your existing SYNC user ID if you have one.' At the bottom are 'LOGIN' and 'REGISTER' buttons. The right screenshot is a 'SYNC™ Software Update' notification. It features a green download icon at the top. The text reads: 'SYNC™ Software Update', 'There is a SYNC™ software update available for your vehicle. Visit the SYNC™ Software Update Centre to access your download.', and a note: 'Note: You will need an available USB port to download SYNC™ Software Updates.' Below this is a blue button labeled 'Go to Download Page' and a link: 'Click Here to report a successful SYNC™ Software Installation in your vehicle. Alternatively install the Status Checker from here to check if you have the right update or not.' At the bottom is a small image of a USB drive.

After logging in scroll down and you will find a link to the 'Download Page' of the 'SYNC Software Update'

Select Link and 'Request Download' and follow update instructions. If you get an **Error: Your request has failed. Please request again,** Please contact:

[foacust1@ford.com](mailto:foacust1@ford.com) and advise them you are getting an error while trying to download the sync 2 update. Please include you're the email address and date you registered with the 'Ford Dashboard'.

Once update is complete. Item can be purchased from the website. After purchasing please supply a screenshot of your Sync 2 System Information and email to [orders@aslautomedia.com](mailto:orders@aslautomedia.com) to enable us to proceed with your order.
